## ABOUT ME

Aspiring Full Stack Developer with hands-on experience building responsive web applications using React.js, Node.js, JavaScript, and MongoDB. Skilled in REST APIs, frontend-backend integration, debugging, and Git workflows with a strong interest in scalable software development and modern web technologies.

## EDUCATION

2024 - 2026  
**NMAM INSTITUTE OF TECHNOLOGY  
NITTE**  
Master of Computer Applications  
9.62

2021- 2024  
**POORNAPRAJNA COLLEGE  
UDUPI**  
Bachelor of Science  
9.63

## LANGUAGES KNOWN

- English
- Kannada
- Hindi
- Konkani

## SKILLS

- Languages:** Java, Python, C
- Frontend:** HTML, CSS, JavaScript, React
- Backend:** Node.js, Express.js, REST APIs
- Database:** MySQL, MongoDB
- Cloud:** AWS ( S3, CloudFront )
- Tools:** Git, GitHub, VS Code

## CERTIFICATIONS

- SQL Intermediate**, HackerRank
- Java**, HackerRank
- Building LLM Applications using Prompt Engineering**, Analytics Vidhya

## PUBLICATIONS

### The Language of Emotions: Algorithmic Reasoning for Stress and Mood Identification

- Published research paper focused on computational approaches for stress and emotion analysis using algorithmic techniques.
- Focuses on emotion analysis and mood detection through data-driven methods.

## INTERNSHIP

### Software Development & Operations Intern

Goyaana | December 2025 - March 2026

- Assisted in SaaS deployment and maintenance workflows in cloud-based environments.
- Supported debugging activities, SQL validation checks, and version upgrade processes and Collaborated with developers using Git workflows during deployment cycles.

## PROJECTS

### REAL TIME CHAT APP

**Tech:** MongoDB, Express.js, React, Node.js

- Built a real-time messaging application using the MERN stack with authentication and one-to-one communication features.
- Developed RESTful backend APIs and integrated MongoDB for persistent message storage and dynamic updates.

### RESTAURANT BOOKING APPLICATION

**Tech:** HTML, CSS, JavaScript, React, Node.js, MongoDB

- Developed a responsive restaurant reservation platform with booking management and confirmation workflows.
- Created reusable React components and integrated frontend-backend modules for efficient reservation handling.
- Improved user experience through responsive layouts and streamlined navigation flows.

### MEDICAL DEVICE MONITORING AND SIMULATION PLATFORM

**Tech:** React, Node.js, Python

- Built a real-time dashboard to simulate and monitor patient vitals including heart rate and oxygen levels.
- Implemented alert handling logic for abnormal readings and monitoring workflows.
- Integrated backend services and real-time visualization for healthcare monitoring simulations.
